

## ADDITIVO STAR

### SPECIFICATIONS

Supply and application of water-based additive for interior use (STAR). Additivo Star (any colour) should be added directly to the paint and the two products mixed together carefully before the final coat is applied. If using particularly thick paints, it may be difficult to mix in Additivo Star.

All of this must be performed observing the application standards, including the material, application and all preparatory work required.

Cost per m<sup>2</sup> € \_\_\_\_\_
