

JUNGLE - LEOPARD EFFECT

SPECIFICATIONS

Supply and application of decorative paint recreating animal patterns (LINEA JUNGLE). The finish creates a typical Leopard-spots pattern (JUNGLE LEOPARDO), in black and brown/orange with a cracked effect on the surface finish, but with a smooth, flat feel. Application requires cleaning of the surface to be decorated, removing impurities and any damaged areas that are detaching. Application of appropriate base coat, to achieve a smooth surface ready for the finish. Application of the product is performed according to the procedure indicated by the manufacturer (see Technical Data Sheet for details).

All of this must be performed observing the application standards, including the material, application and all preparatory work required.
